

Subject: Spontaneous Application – Software Developer / IT & Digital Solutions

Dear Hiring Manager,

I am writing to express my interest in joining Cadyst Group through a spontaneous application. I am a motivated Software Developer with practical experience in building reliable web applications, integrating APIs, and supporting data-driven systems.

I have worked on frontend development using modern frameworks such as React, as well as backend services with ASP.NET Web APIs and database systems. I have also contributed to automation and AI-assisted solutions, where accuracy, system stability, and efficiency were key. These skills allow me to support digital tools that improve internal processes, data management, and operational performance.

I am particularly interested in Cadyst Group because of its strong industrial presence and commitment to structured growth. I am eager to contribute my technical skills, adaptability, and strong learning mindset to support your IT and digital transformation initiatives.

Yours faithfully,

TABOT JUNIOR OBEN
Douala, Cameroon
